

Aging Department - Senior Enrichment Center

Aging Department - Senior Enrichment Center FY26

The Moore County Department of Aging provides many services - nutrition, transportation, in-home aide, SHIIP, and resources for family caregivers - to Moore County citizens aged 60 and over. Residents aged 50 and over will enjoy participating in a variety of programs and recreational activities at the Senior Enrichment Center. Volunteer instructors and peer-led groups provide an opportunity to learn a new skill (knitting, woodcarving, greeting card workshop), reconnect with friends (Maj Jongg, Canasta, Men's Bridge), or increase physical activity in their daily life (Tai Chi, fitness room, yoga, walking track). Lots of opportunities also exist to volunteer and serve the older adults of the Moore County community.

Child Support

Child Support DRC FY26

Moore County Department of Child Support/Day Reporting/Youth Services (General Fund)

Child Support: The Child Support Program establishes and enforces child support orders to insure that both parents support their children. The program offers five core services including location of non-custodial parents, establishing paternity for children born outside of marriage, establishing support obligations, collecting/distributing support, and enforcing support obligations. The below Child Support chart shows monthly and year to date collection information.

Day Reporting: The Day Reporting Center provides substance abuse education/treatment and cognitive behavioral intervention classes for citizens on probation who are referred to the program through the criminal justice system. Program participation provides an alternative to incarceration for the referred individuals. The below Day Reporting Center chart reflects successful program completion statistics on a monthly and year to date basis.

Youth Services: The Youth Services Program provides juvenile restitution, Teen Court, and Interpersonal Skill Building components for referred juveniles. Juvenile restitution allows youth, sentenced by the Juvenile Court system, to conduct community service and/or pay restitution for damages they have caused. Teen Court is an alternative system of justice wherein first time offenders are tried by a jury of his or her peers for misdemeanor offenses. The Interpersonal Skill Building Program, Why, Try, provides a 10 week curriculum addressing social skills that assist youth in dealing with life's challenges in a positive way in order to reduce their further involvement in the juvenile legal system and improve their participation as productive citizens

Public Safety Communications/Fire Marshal

Public Safety Communications/Fire Marshal FY26

Moore County Department of Public Safety Communications/Fire Marshal (General Fund 100)

The mission of Public Safety Communications is to receive, process, and dispatch appropriate emergency response agencies to all 911 calls for emergency services in Moore County. The Communications Center receives all 911 calls throughout the County and is staffed 24 hours a day, 7 days a week, 365 days a year by a minimum of three highly trained tele-communicators with Emergency Medical Dispatch, Emergency Fire Dispatch, DCI, and multiple job-related certifications.

The mission of the Fire Marshal's office is to protect lives and property through fire prevention. This is accomplished through enforcement of the North Carolina Fire Prevention Code and offering public education programs as requested. The Fire Marshal's office maintains one person on call 24 hours a day, 7 days a week, 365 days a year to respond to any fire-related incidents or investigations and citizen complaints related to code enforcement. The Fire Marshal's office has a special staff member, Star, who is an Arson K9. Moore County is one of the few counties that has an arson canine on staff and the training for the arson dog was provided by State Farm Insurance Company and Maine Specialty Dogs in Gray, Maine.

Human Resources

Human Resources FY26

The Human Resources Department, in partnership with all departments, is committed to recruiting, developing and retaining knowledgeable, customer-focused employees in a healthy and safe work environment. Therefore, the Human Resources Department tracks turnover, level of employment and length of vacancies. A consistently large number of vacancies can indicate an excessive amount of turnover and/or positions that are difficult to fill and therefore remain vacant for long periods of time. Both of these indicators alert the Human Resources Department of areas needing attention.

Risk Management

Risk Management FY26

Moore County Department of Risk Management (Internal Service Fund)

The Moore County Risk Management Fund administers health and dental insurance and voluntary benefit products, interprets policy and program covered benefits and assists with claim resolution. In addition, the fund administers the property and liability, and workers compensation (WC) insurance coverage, coordinates the safety program, loss control, claim handling and general risk management services for County departments. Risk Management is responsible for the payment of the following: W/C Premiums, W/C Claims, Property and Liability Premium, Wellness Works Staffing Contract and all related expenses, Health and Dental Insurance Claims, Pharmacy Claims, Volunteer Benefit Products, Safety Events, Health Fair Expenditures and the Risk Manager's salary and benefits.

Experience modifier or ex mod is the adjustment of an annual insurance premium based on previous loss experience. Ex mod calculations use loss information and compare it to what is calculated to be 'average' losses for a company of similar size and line of work. NCACC uses three years of loss experience to determine the ex mod. The three years include not the immediate past year, but the three prior years. The calculated expected losses utilizes past audited payroll information for a particular employer, by classification code and State. These payrolls are multiplied by 'Expected Loss Rates' which are calculated by rating bureaus based on past reported claims cost per classification.

IT and GIS

Information Technology FY26

Moore County Department of Information Technology/Geographic Information Systems (General Fund)

The Information Technology (IT) Department aligns the County's Information Technology infrastructure and systems to the business needs of the County departments. The IT department designs, implements and maintains the technology hardware, applications and programs. As County departments continue to advance in technology solutions, this requires more bandwidth (internet) and data storage.

The IT Department is also over the Geographic Information Systems (GIS) division. The GIS division provides analysis and mapping services for all County departments. GIS uses mapping for utility modeling, maintains necessary E-911 data and provides addressing and analytics within maps using data and aerial imagery for Moore County. Through partnerships with all the municipalities, Moore County GIS is the sole source for E-911 county-wide addressing. The GIS division assigns, new addresses or makes changes and updates to existing addresses as needed. The GIS website is used for tax information, real estate queries, land planning information, voter information and much more. GIS hosts a highly trafficked feature on the Moore County website and employs feedback and usage data to continue improving. GIS data enables users to review and display data both spatially and analytically.

Animal Services

Animal Services FY26

The mission of the Animal Services Division of the Moore County Sheriff's Office is to safeguard our community by addressing the multifaceted challenges related to animal welfare. We are dedicated to protecting the public from potentially dangerous animals, responding to concerns with professionalism and expertise while adhering strictly to federal, state, and local laws. Our commitment extends to providing responsible solutions for domestic animals, offering a compassionate alternative that ensures the well-being of both animals and the community. Through proactive adoption programs, we strive to save as many domestic animals as possible, facilitating their transition to loving and permanent homes. Moreover, our mission encompasses a steadfast dedication to disease control and public health. By implementing rigorous health protocols and community education initiatives, we aim to mitigate the spread of diseases associated with animals, fostering a safer and healthier environment for both residents and their animal companions. In alignment with the values of the Moore County Sheriff's Office, our Animal Services Division is unwavering in its commitment to excellence, empathy, and public service, working tirelessly to harmonize the needs of the community with the well-being of our animal residents, all while ensuring strict compliance with federal, state, and local laws.

Adoptions

In our dedicated efforts to address the welfare of domestic animals, our sincere goal is the adoption of every domestic animal that enters our shelter. We believe in giving every animal the opportunity to find a loving and permanent home. However, we acknowledge that some domestic animals, while well-suited to their previous families, may struggle with adapting to new environments or individuals. For such cases, we implement a comprehensive monitoring and behavioral intervention program. During this time, our dedicated team assesses the animal's behavior and works diligently to address any challenges. If there are positive signs of adjustment, an additional period of focused interaction ensues. Throughout this process, the animals remain available to our adoption partner facilities for collaborative efforts. However, recognizing that some animals may exhibit inherent dangerous behaviors that pose risks to public safety, we prioritize the well-being of our community by making informed decisions to ensure that these animals cannot be adopted. Our commitment lies in finding the right balance between providing a second chance for domestic animals and safeguarding the public.

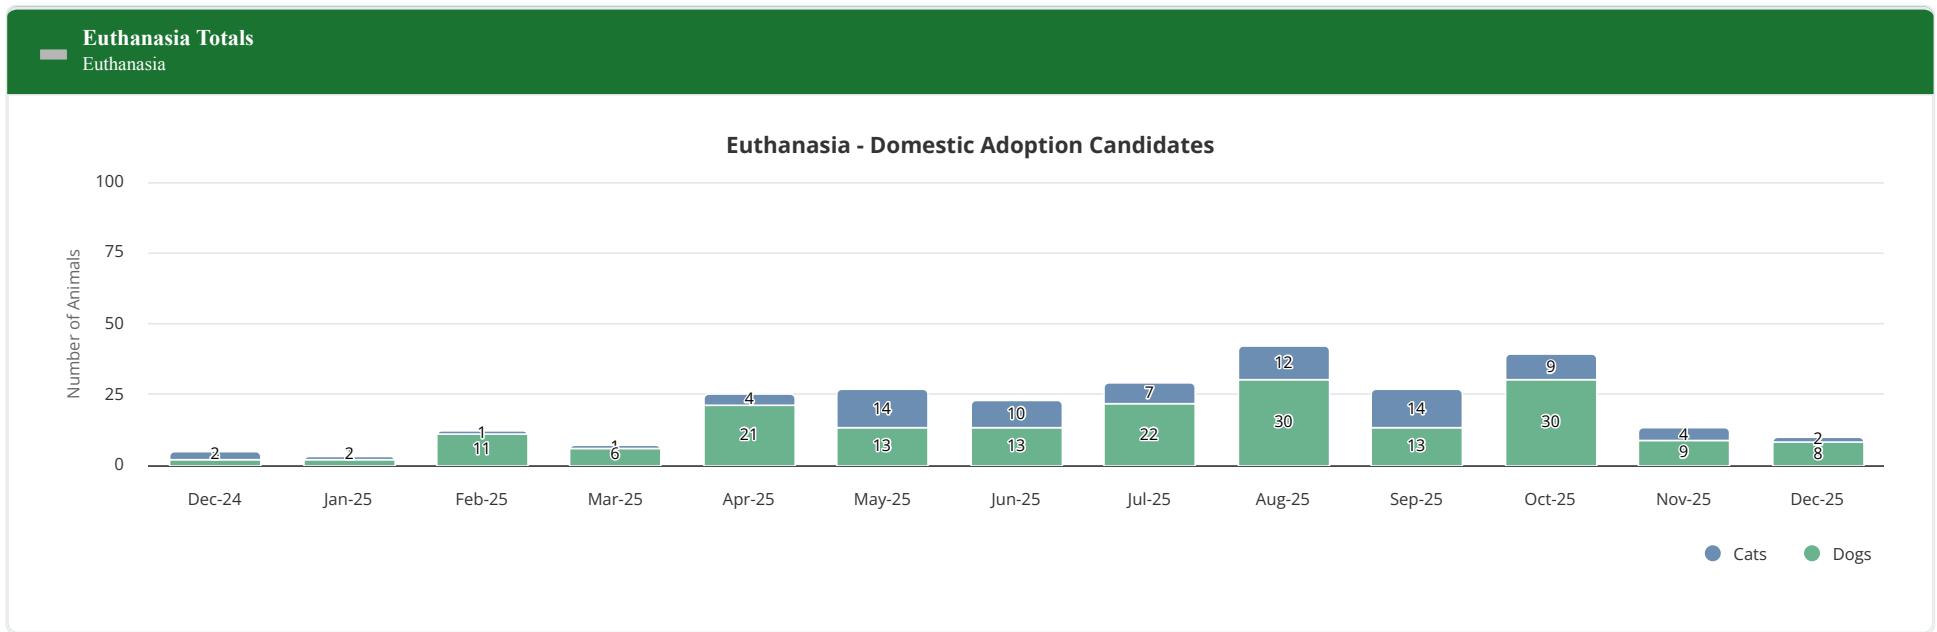

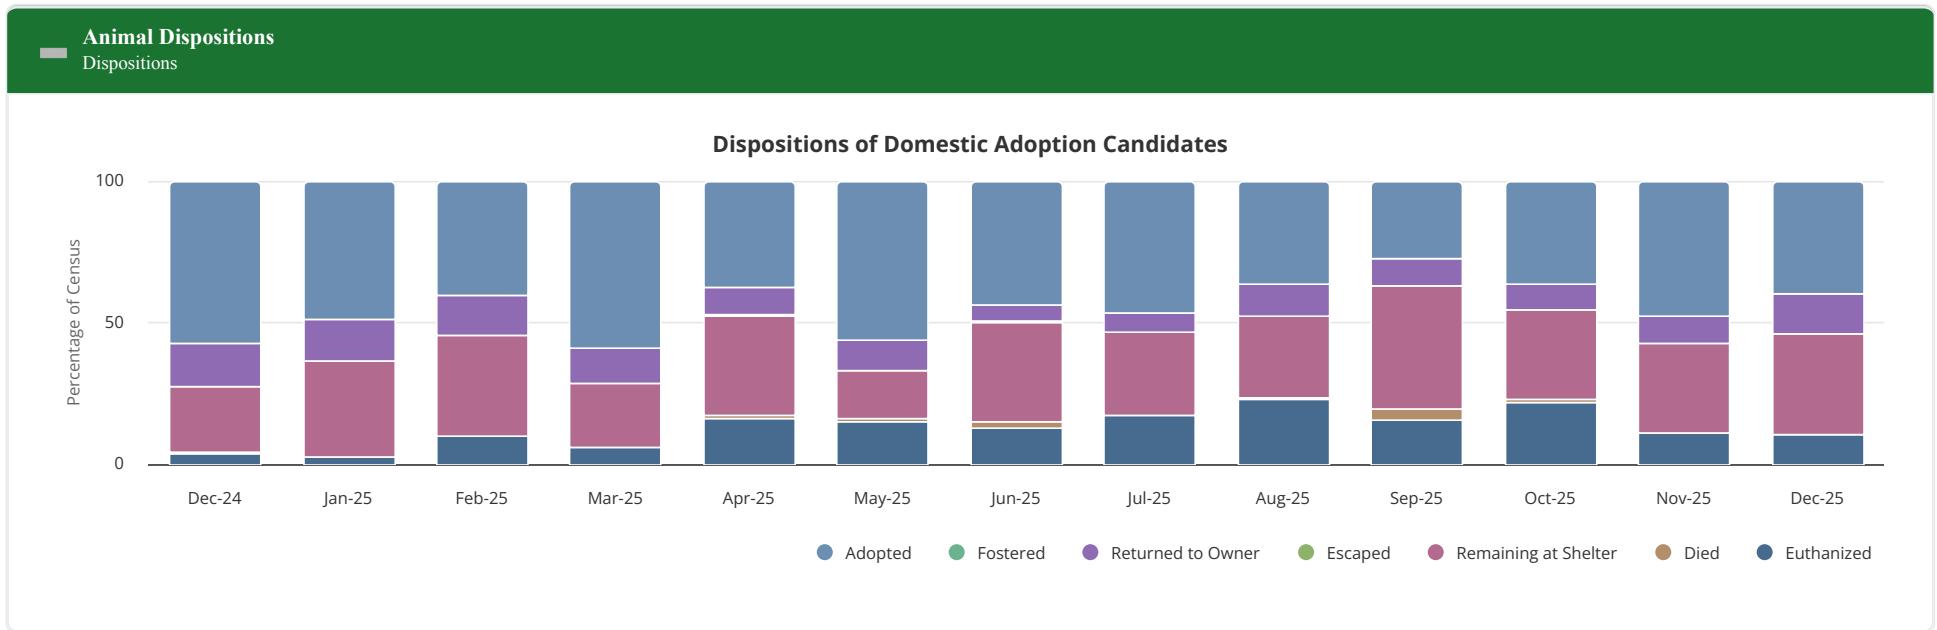

Adoptions Overview

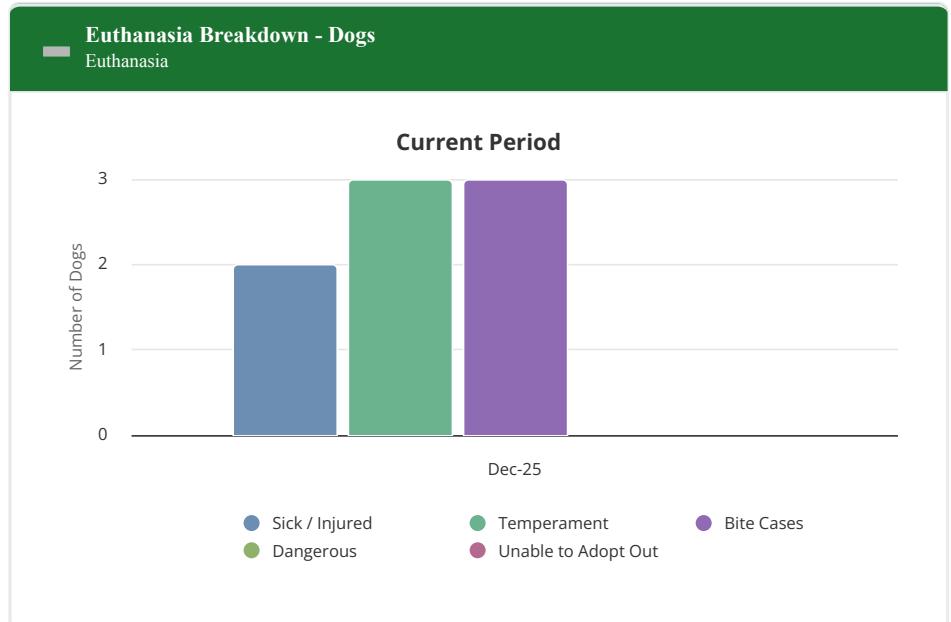

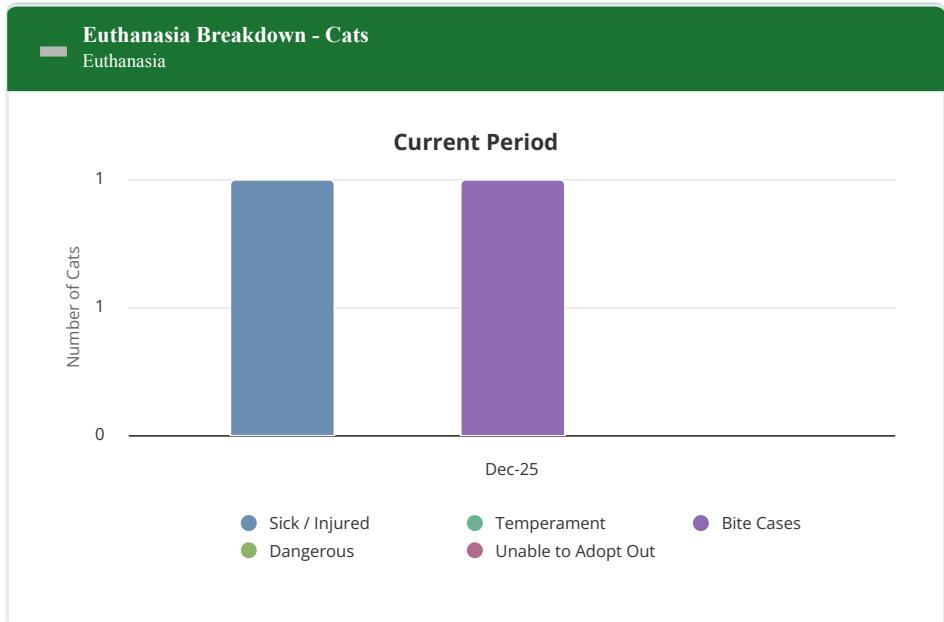

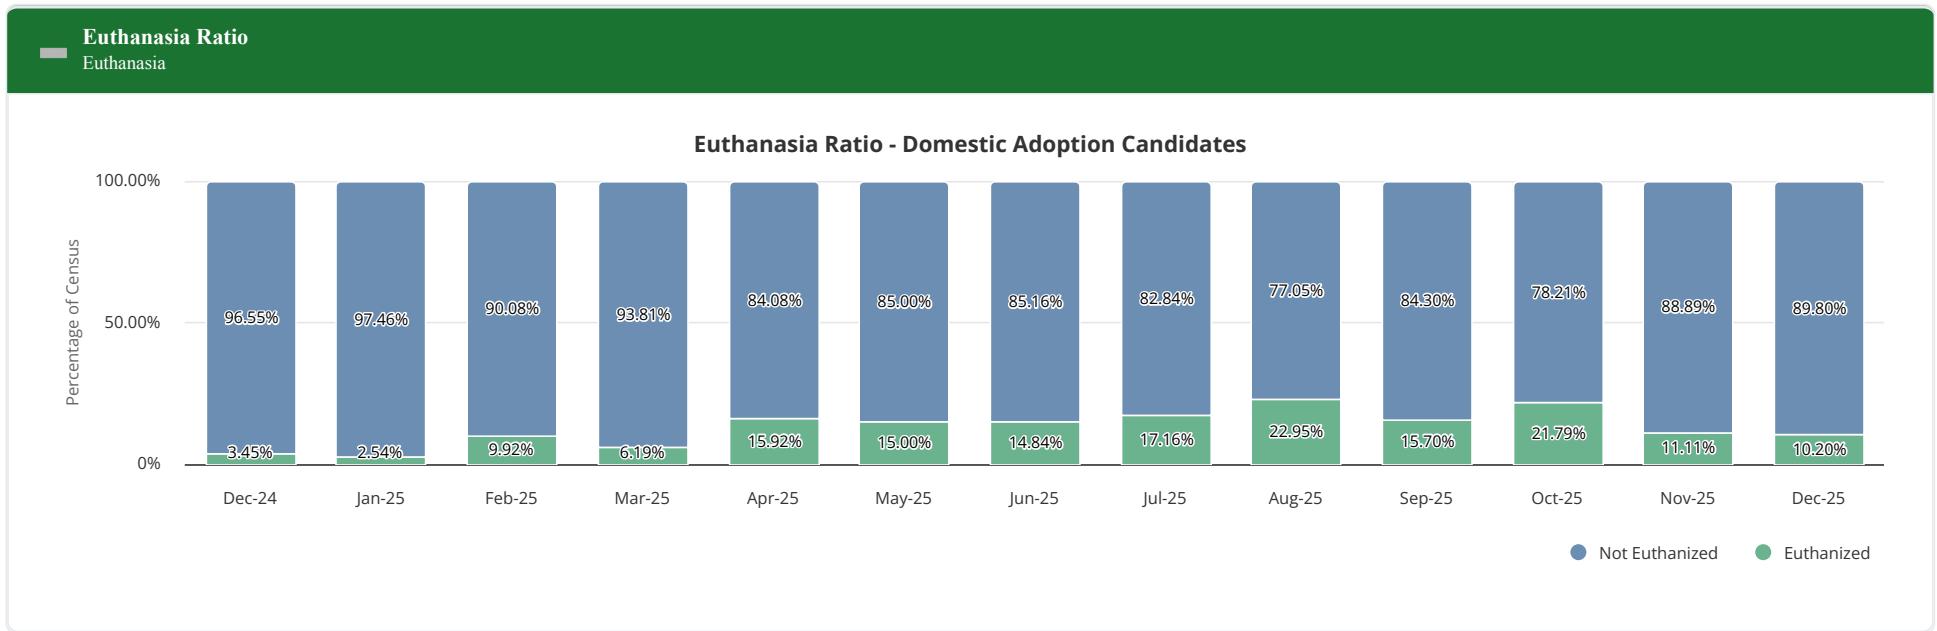

Adoptions

Rescue Partners

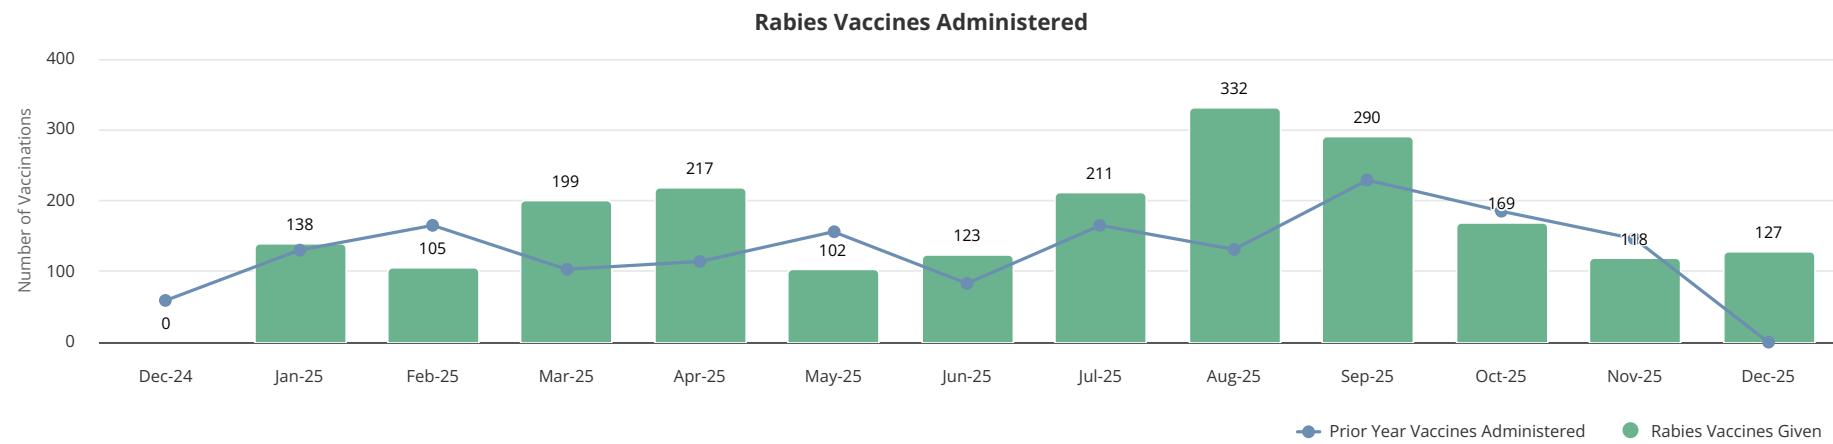

Our Animal Services Division thrives on collaborations with an extensive network of rescue facilities, fostering a collective commitment to the well-being of domestic animals. We are particularly grateful for the exceptional dedication of partners such as Tilted Acres Rescue and Adoption, Feline Friends of Moore County, Paws of the Pines Rescue, Central Carolina Community College, Holly's Rescue, It takes a Village, and Saving Grace Rescue, among others. These exemplary organizations have played a vital role in the successful rescue and adoption of numerous animals from our facility. It is noteworthy that our division maintains partnerships with over 60 rescues, each contributing uniquely to our shared mission. Together, these collaborations have resulted in the successful rehoming and safeguarding of hundreds of animals, underscoring the positive impact that a robust network of rescue partnerships can have on achieving our collective goal of providing loving homes for every animal in need.

Rabies Vaccines

Vaccinations

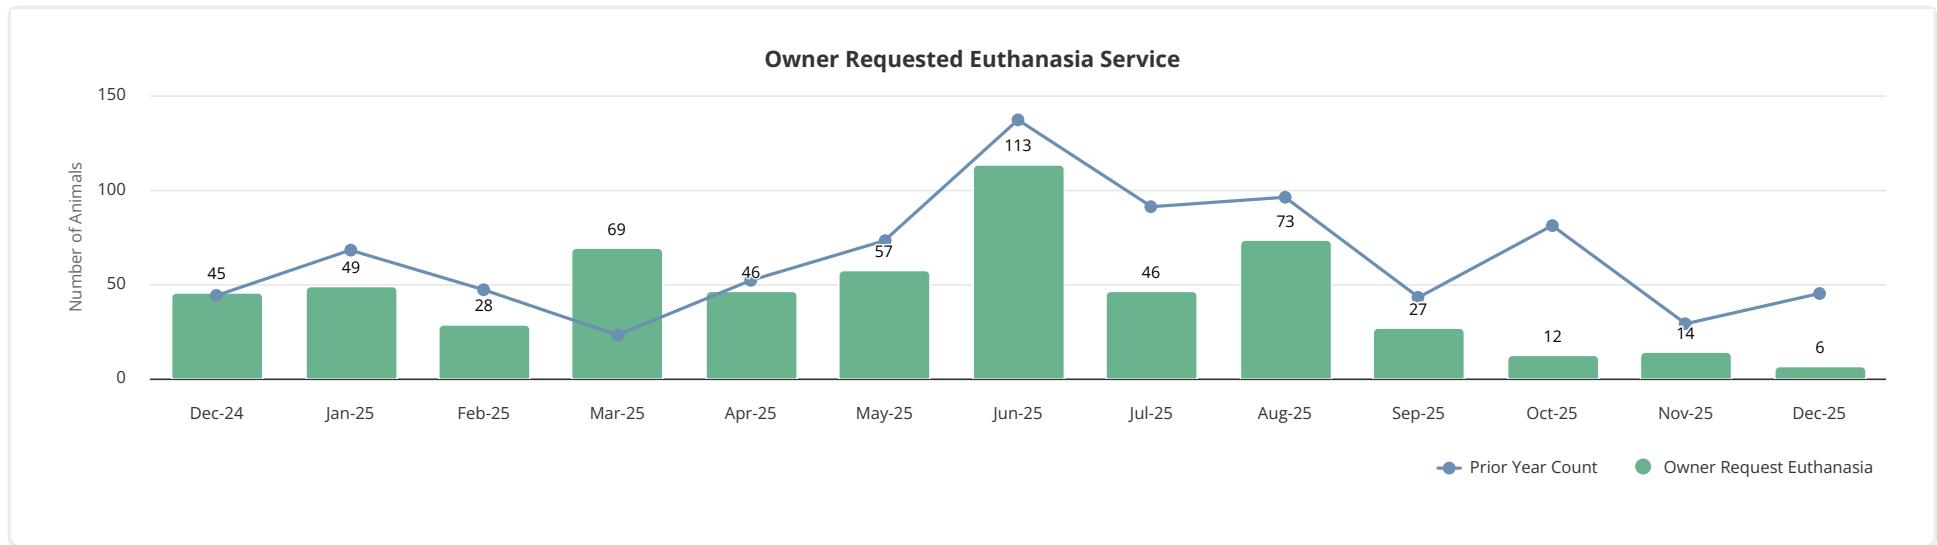

Vaccinations

We prioritize the health and well-being of our animals through a comprehensive care regimen. As part of our commitment to responsible pet ownership and public safety, we diligently ensure that all adoptable animals in our care are up to date on vaccinations. This proactive approach not only safeguards the health of the animals within our facility but also provides assurance to potential adopters that their new companions have received essential vaccinations. By adhering to these rigorous health protocols, we aim to create a safe and healthy environment for both the adopted animals and the broader community.

Owner Requested Euthanasia Service

Owner Requested Euthanasia

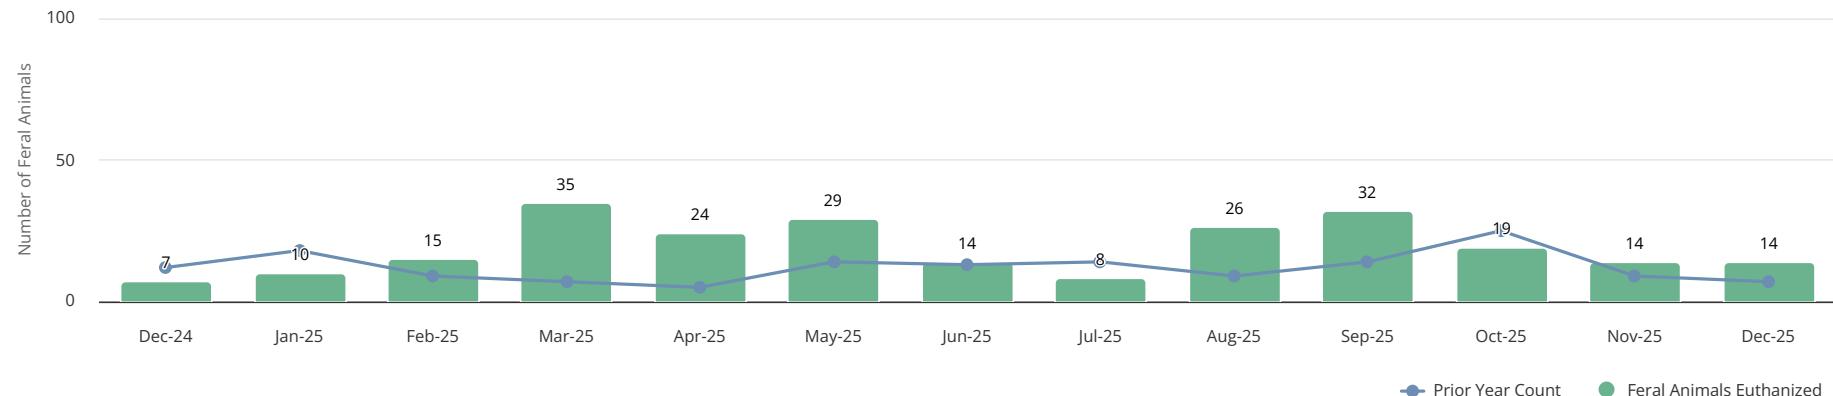

Owner Requested Euthanasia Service

As part of our compassionate approach to animal welfare, we provide the crucial service of owner-requested euthanasia. Recognizing the difficult decisions that pet owners may face, we extend this service at no cost for individuals with sick, injured, or elderly animals. Our commitment is rooted in empathy and understanding, acknowledging the challenges associated with caring for pets during times of illness or advanced age. By offering this service without financial burden, we aim to support owners in making compassionate decisions for their beloved companions, ensuring a dignified and humane end-of-life experience for animals in need. Our dedicated team navigates these situations with sensitivity and professionalism, always prioritizing the well-being of both the animals and their owners.

Feral Animal Euthanasia

Feral Animal Euthanasia

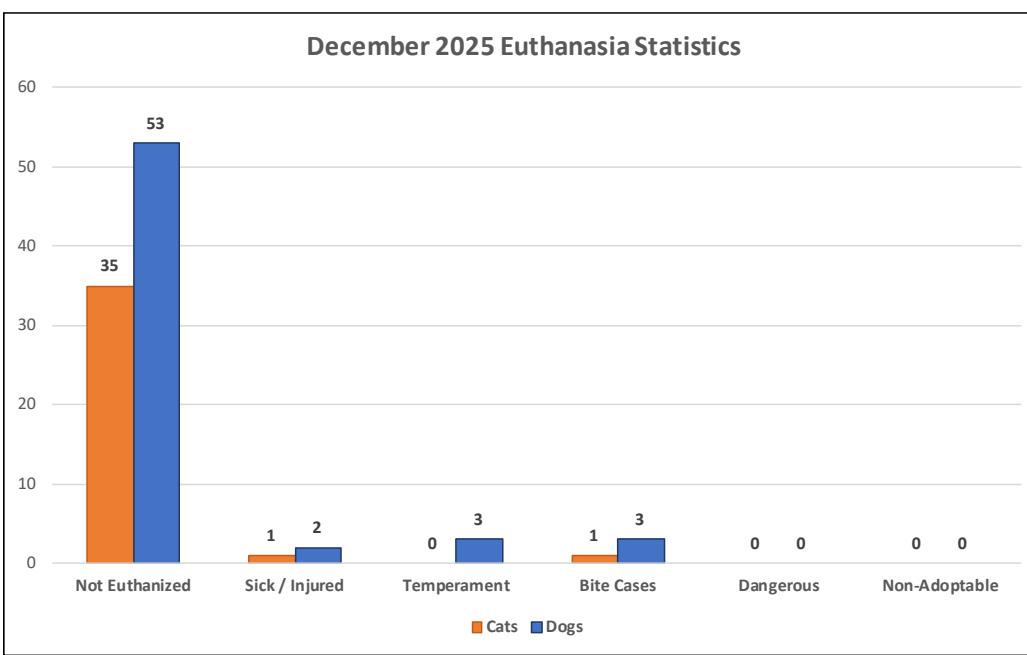

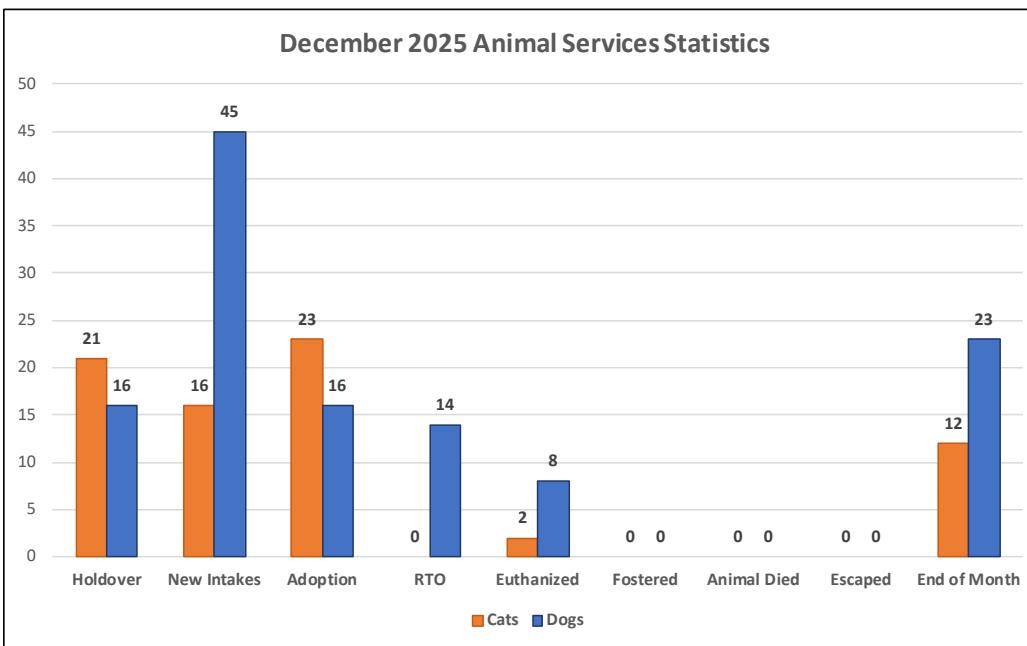

Feral Animal Euthanasia

Feral Animals

Feral animals, referring to domesticated animals that have reverted to a wild state, pose unique challenges to their well-being and the community. These animals often face challenges in integrating into human environments due to their lack of socialization and may exhibit behaviors that can be unsafe, both for themselves and others. Additionally, the unchecked reproduction of feral animals, such as feral cat overpopulation, can lead to overpopulation, further exacerbating the complexities of their management. This overpopulation poses risks not only to the animals themselves but also has broader implications for the local wildlife community. Feral cats, for instance, are prolific hunters and can have a significant impact on the local wildlife population. Their predatory behavior can lead to a decline in small mammals, birds, and reptiles, disrupting the natural balance of the ecosystem. At Moore County Animal Services, we recognize the inherent dangers associated with feral animals, including the potential transmission of diseases that can compromise public health and the health of other animals. Regrettably, due to their untamed nature and the difficulty in rehabilitating them for domestic life, feral animals cannot be adopted into traditional homes. As a responsible and compassionate organization, when euthanasia becomes a necessity, it is carried out with careful consideration, prioritizing the welfare of the animal and the broader community. Our commitment remains unwavering in addressing the complexities of feral animal management while striving to minimize the impact on public health, safety, and the delicate balance of the local wildlife community.

Soil & Water Conservation

Soil & Water Conservation FY26

The mission of the Moore County Soil and Water Conservation District is to preserve the natural resources for all land users in Moore County by providing technical, educational and financial assistance. The number of acres that are planted using the rental equipment has shifted downward over the past couple of years. However, the number of renters has increased. This is a trend that has also shown up in the request for technical and financial assistance from our office. The size of individual farms is smaller than they once were. We have had a huge increase in the number of inquiries coming from individuals that are new to farming and are looking for ways to best manage their farm.

Solid Waste

Solid Waste FY26

Moore County Solid Waste is a division of Property Management and operates seven staffed convenient centers to accept residential solid waste and recyclables at no cost to the citizens. The Moore County Landfill located at 456 Turning Leaf way in Aberdeen houses the Municipal Solid Waste (MSW) transfer station, Construction and Demolition landfill, yard waste facility, and the collection of special waste such as scrap tires and white goods. Landfill fees are charged at the landfill for Commercial C&D, MSW, as well as all yard waste. Each year the disposal rate or landfill fees are set by the Moore County Board of Commissioners based on a per ton charge.

Budget Information

Water Pollution Control Plant

Water Pollution Control Plant FY26

The Water Pollution Control Plant (WPCP) is a division of Public Works. The WPCP treats wastewater produced within Moore County, Hoffman, and Camp Mackall under strict guidelines of the National Pollutant Discharge Elimination System (NPDES) permit and Moore County Sewer Use Ordinance. Flow is invoiced monthly to each town based on meter readings at the monitoring stations. Flow treated versus flow invoiced is measured to determine accuracy of revenues and detect inflow and infiltration in the interceptor. Capacity is tracked to determine when the next expansion will be required.
