****PLEASE NOTE**** HYDRANT METER WILL ONLY BE IN PLACE FOR THE RENTAL FEE PERIOD PRE-PAID. IF ADDITIONAL DAYS ARE NEEDED, YOU WILL NEED TO PREPAY RENTAL FEES OR BEGIN THE APPLICATION PROCESS OVER.

***NOTE:** Standard size hydrant meter is 3-inch. Maximum flow rate is 300 gallons per minute. Flow rate may be reduced to as low as 75 gallons per minute depending upon the location of the meter installation. Standard mechanical connection size to backflow preventer is 2-inch female thread. It is the responsibility of the applicant to provide the appropriate fittings for the connection to the backflow preventer. Only MCPW personnel shall operate the hydrant and associated appurtenances. Please allow 3-5 business days for installation.

HYDRANT METER SERVICE CONNECTIONS: Hydrant meters are installed on the 2.5-inch hydrant connection only. Payment for any damage to the hydrant, hydrant meter or backflow preventer, other than natural causes, will be the responsibility of the applicant.
